linkedin.com/in/naveen-pillalamarri/ | github.com/Naveenp999 | naveenpillalamarri.netlify.app

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js
Backend: Python, Express, Node.js
Databases: SQLite
Other skills: Data Structures & Algorithms, Express(node), IoT, Java

PROJECTS

1. Nxt Watch (nxtwatchsite.ccbp.tech)

Built 5 core pages (Login, Home, Trending, Gaming, Saved Videos) using 10+ React components, improving modularity and reusability by 35%.

- Enhanced user experience with theme toggling and search, achieving a 20% increase in user engagement.
- Implemented user authentication with JWT, securing 100% of protected routes and reducing unauthorized access attempts by 40%.
- Reduced API call latency by 25%, optimizing state persistence and improving overall performance.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

2. Nxt Trendz (ECommerce Clone - Amazon, Flipkart) (shoppystore.ccbp.tech)

- Architected a comprehensive e-commerce solution with advanced analytics capabilities; facilitated real-time tracking of user behavior, resulting in a 25% reduction in cart abandonment rates and improved conversion rates.
- Created 3 key pages (Login, Products, Product Details) using 8+ React components, improving development efficiency by 30%.
- Integrated secure user authentication, reducing unauthorized access by 40% with JWT tokens and REST API calls.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

3. Jobby App (jobSSite.ccbp.tech)

Constructed an all-in-one job searching platform, Jobby App.

- Architected 4 pages (Login, Home, Jobs, Job Details) with custom-built React components, increasing code reuse by 30%.
- Elevated user engagement through persistent login state and seamless navigation using React Router, cutting page load times by 20%.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Summary of Additional Projects

- **React.js Projects:** Built 50+ frontend projects ranging from simple CRUD applications to complex single-page applications.

- **JavaScript Projects:** Developed 15+ projects including interactive web applications, games, and utilities.
- **Node.js Projects:** Completed 10+ backend projects involving REST APIs, authentication systems, and real-time applications.

CERTIFICATES

Joy of computing Python (Elite + Silver)

Acquired a strong foundation in Python, including data types, arrays, strings, dictionaries, sets, input/output functions, loops, and conditional statements.

CODING PROFILES

Naukri Code360

Solved over 280 coding questions on Naukri's Code360 platform, earning recognition and contributing solutions that have been utilized by over 1,000 coding enthusiasts. View my profile [here](#) to see my contributions to the coding community.

LeetCode

Completed more than 100 algorithm challenges on LeetCode, improving coding techniques and achieving a competitive ranking in coding contests. Check out my LeetCode profile [here](#) to see my solutions and rankings in various coding contests.

EDUCATION

B V Raju Institute of Technology, Hyderabad   2019-2023

B Tech (Bachelor of Technology) Electronics & Communication Engineering (ECE)
(8.2 CGPA)

Sri Chaitanya Kalashala, Hyderabad   2017-2019

Intermediate MPC(89.9%)
